

INTER CARE

MANHATTAN · WESTCHESTER

Specialists in Alcohol and Substance Use Treatment

Introducing our New Morning Early Recovery Group

*Manhattan Location
Tuesdays & Fridays
7:30am - 8:30am*

For individuals seeking a program for support in abstaining from problem substance use that is less demanding of their time than an Intensive Outpatient Program.

With a less intensive schedule, the program provides a level of flexibility that many individuals require while also ensuring individualized and effective treatment services.

For those:

Whose problem substance use is of mild to moderate severity;

Who are not ready to or able to commit to an intensive level of care;

Who would prefer to receive treatment prior to the start of the work day.

Who are returning from inpatient treatment programs.
